

Date: July 3, 2026

To: School District Purchasing Department, Career & Technical Education (CTE) Directors, and Certified Board Officials

Subject: Sole-Source Authorization for Mr. Circuit Technology Products and Curriculum

To Whom It May Concern,

This letter is to officially certify that **Mr. Circuit Technology** is the sole-source manufacturer, developer, and provider of the Mr. Circuit Electronics and STEM/Robotics training kits, including all accompanying proprietary curricula, teacher guides, and student learning materials.

These products are copyrighted, trademarked, and manufactured exclusively by Mr. Circuit Technology. No other company manufactures or distributes these exact items within the United States.

The Mr. Circuit Technology learning system qualifies as a sole-source purchase based on the following unique, non-competitive features:

1. **Proprietary Hardware:** The specific physical circuit layouts, component configurations, and laboratory workboards are unique designs owned exclusively by our company.
2. **Integrated Curriculum Alignment:** The structured lesson plans, step-by-step teacher guides, and grading rubrics are explicitly mapped to national STEM and CTE standards, creating a turnkey system that cannot be replicated by purchasing generic electronic components.
3. **Exclusive Distribution:** Mr. Circuit Technology sells and ships these kits directly to educational institutions. No third-party distributors or resellers are authorized to provide these packages, ensuring the lowest direct-to-school pricing.

Competition is precluded by the existence of these proprietary and patent-pending features. Therefore, purchasing from any other vendor would defeat the purpose of obtaining this specific educational system.

We accept official School Purchase Orders (POs) and can provide our W-9 form and vendor registration details upon request.

If you require any further documentation or have questions regarding this sole-source status, please contact our corporate office at [Insert Phone Number] or via email at [Insert Email Address].

Sincerely,

Gary Gibson, Founder / CEO
